

LANDSCAPING PLANTING SCHEDULE

Dear Glyndon Trace I Resident,

Your GT I Board of Directors along with our landscaping company, Brickman Landscaping, have identified several GT I properties where the original developer planted Giant Arborvitae and Junipers at front window locations. Due to the size of Giant Arborvitae and Junipers at maturation the shrubbery have reached a point where they are overtaking the property and block the view and light from living room windows and therefore need to be replaced.

The Board has developed a three year replacement plan at these locations at no charge to the residents. Monies will be budgeted each year and replacement will occur during the fall of each year. The replacement shrubberies for Year 1 are identified below.

Steve Meconi, a GT I Board member (410.530.3336), contacted residents that were home and left this notice at all homes listed below, along with his contact number.

Sincerely,

GT I Directors
